SUMMARY

Software Engineering undergraduate and Backend AI Engineer with hands-on experience building **RESTful APIs** and database-driven applications using **ASP.NET Core**, **C#**, **MERN**, and **SQL**. Experienced in backend development, authentication, Docker, Git, and AI integration through professional internships and academic projects. Currently focused on building scalable backend systems and AI-powered applications.

TECHNICAL SKILLS

Programming Languages: C#, JavaScript, Python (Basic), C++

Backend: ASP.NET Core, REST APIs, Node.js, Express.js, JWT Authentication, Entity Framework Core

Frontend: React.js, React Native, HTML5, CSS3, Tailwind CSS, Vite

Databases: SQL Server, MongoDB

ERP & Financial Systems: ERP Software, SAP Crystal Reports, Excel, Accounts Payable, Accounts Receivable, Cash & Bank, Inventory, Fixed Assets, Sales, Procurement, Production, HR

Artificial Intelligence: Prompt Engineering, OpenAI API Integration, Generative AI Tools, NLP

Developer Tools: Git, GitHub, Docker, Visual Studio, VS Code, Postman

Libraries & Frameworks: Scikit-Learn, Pandas, NumPy, Transformers, PyTorch, Matplotlib

Languages: English (Professional Working Proficiency), Urdu (Native)

EXPERIENCE

Backend AI Engineer Intern

June 2026 – Aug 2026

FlyRank AI

Remote

- Developing and maintaining **RESTful APIs** using **ASP.NET Core** and **C#**, implementing backend services and business logic for scalable applications.
- Working with **SQL Server** to design, query, and manage relational databases efficiently for backend applications.
- Collaborating with senior developers to build, debug, test, and integrate backend services following industry best practices.
- Utilizing **Git** and **GitHub** for version control, code collaboration, and project management.

Assistant Finance Manager / Accounts

Sep 2023 – May 2026

Al Karam Feeds Mill

Lahore, Pakistan

- Managed **monthly financial closing and reconciliation** by cross-verifying Excel records with ERP system data, ensuring accuracy and consistency of financial transactions and balances.
- Worked across **10+ ERP modules**, including Accounts, Cash & Bank, Inventory, Assets, Receivables, Payables, Sales, Procurement, Production, Administration, and HR, supporting accounting and operational workflows.
- Prepared, reviewed, and reconciled **110+ SAP Crystal Reports** with ERP and Excel data, identifying discrepancies and maintaining accurate financial, management, and operational reporting.

Software Development Intern

Nov 2025 – Dec 2025

DevelopersHub Corporation

Remote

- Developed a full-stack **Task Management System** using the **MERN stack**, including **Node.js** and **Express.js** for backend services and task management workflows.
- Engineered **RESTful APIs** for CRUD operations and integrated **MongoDB** for secure and persistent data storage.
- Utilized **Git** for version control and collaborated in an agile development environment.
- Awarded a Certificate of Achievement for outstanding performance and successful delivery of key technical deliverables.

PROJECTS

Smart Micro CRM (FYP) | *Python, REST API, React Native, MongoDB Atlas*

Dec 2025 – Present

- Developing a cross-platform CRM mobile application for small businesses to manage customers, leads, appointments, and tasks.
- Building secure **RESTful APIs** using **Python** and integrating them with a **React Native** mobile application.
- Utilizing **MongoDB Atlas** for cloud-based data storage, efficient CRUD operations, and scalable database design.
- Implementing authentication, task management, payment tracking, notifications, and analytics to streamline business operations.

Multi-Service AI Suite | *Python, Flask, Docker, OpenAI Whisper*

Jan 2026

- Built an AI-powered dashboard using **Python** and **Flask** for real-time audio transcription and sentiment analysis using **OpenAI Whisper** and NLP.
- Implemented clustering algorithms including **K-Means** and **DBSCAN**, along with the **Apriori** algorithm for pattern extraction from datasets.
- Containerized the application using **Docker** and deployed it on Hugging Face Spaces.

Portfolio Management System | *React.js, Tailwind CSS, ASP.NET Core, JWT*

May 2025

- Built secure **JWT-based authentication** for user login and role management using **ASP.NET Core**.
- Developed **RESTful APIs** and an admin dashboard for portfolio tracking and management.
- Designed a responsive user interface using **React.js** and **Tailwind CSS**.

Meezan Bank Interface Clone | *React.js, Tailwind CSS, Framer Motion, Vercel*

June 2025

- Developed a high-fidelity and responsive banking dashboard with interactive financial modules and modern UI/UX.
- Implemented frontend state logic for 7+ banking features including Secure Transfers, Zakat Calculator, and Bill Payments using React Hooks.
- Added dynamic light/dark mode, tab-based navigation, and interactive transaction filtering.

EDUCATION

University of Central Punjab

Bachelor of Science in Software Engineering

Lahore, Pakistan

Oct 2022 – Present | 8th Semester
