SUMMARY

Software Engineering undergraduate with hands-on experience in **ASP.NET Core**, React.js, and backend development through software development internships. Passionate about building scalable web applications, **RESTful APIs**, and business automation solutions. Experienced with **MERN Stack** and currently specializing in ASP.NET Core while expanding expertise in Artificial Intelligence integration for modern software systems.

EDUCATION

University of Central Punjab, Lahore	Oct 2022 – Present
Bachelor of Science in Software Engineering	
Punjab College, Lahore	Oct 2019 – May 2021
F.Sc. Pre-Engineering	

WORK EXPERIENCE

Backend Developer Intern	June 2026 - Present
- Developing RESTful APIs using ASP.NET Core - Working with relational databases and backend application logic. - Collaborating with senior developers to build scalable backend services. - Using Git and GitHub for version control. - Participating in debugging, testing, and API integration.	
Software Development Intern	Nov 2025 – Dec 2025
- Developed Task Management web application using React.js, Nodes.js, Tailwind CSS, and Vite. - Integrated RESTful APIs into frontend applications. - Implemented user-friendly dashboards and optimized navigation workflows to improve user experience. - Managed source code, version control, and deployment workflows using Git and GitHub.	

PROJECTS

Final Year Project	
Smart Micro CRM for Small Organization (FYP)	Dec 2025 – Present
Technology Stack: Python, React Native, MongoDB, REST APIs	
- Designed and developed a smart CRM for schools, gyms, and barber shops. - Implemented role-based authentication and authorization for secure user access. - Developed RESTful APIs for customer records, lead tracking, task management, and reporting. - Built interactive dashboards for monitoring customer interactions, sales activities, and business performance.	
Portfolio Management System	
Technology Stack: ASP.NET Core, React, PostgreSQL	
- Built secure JWT-based authentication. - Developed admin dashboard and RESTful APIs. - Designed responsive UI using React and Tailwind CSS.	
Apex Estate – Real Estate Web Application Team Lead / Full-Stack Developer	June 2025 – July 2025
- Led a team in developing a responsive real estate web application using React.js, Tailwind CSS, and Vite. - Implemented user-friendly dashboards and optimized navigation workflows to improve user experience. - Managed source code, version control, and deployment workflows using Git and GitHub.	

LEADERSHIP ACTIVITIES

University Project Team Lead

Mar 2024 – Present

- Led software engineering project teams, coordinated sprint planning, delegated tasks, and ensured timely project delivery.

SKILLS AND CERTIFICATIONS

Languages: C#, JavaScript, Python (Basic), Java (Basic), C++

Backend: ASP.NET Core, REST APIs, Node.js, JWT Authentication, Entity Framework Core, Express.js

Frontend: React.js, React Native, HTML5, CSS3, Tailwind CSS, Vite

Databases: SQL Server, MongoDB, PostgreSQL

AI: Prompt Engineering, OpenAI API Integration, Generative AI Tools

Tool: Git, GitHub, Visual Studio, VS Code, Postman, Docker

CERTIFICATIONS

- MERN Stack Development – Coursera (Board Infinity)

LANGUAGES

English (Professional Working Proficiency)

Urdu (Native)
